

# JON STETSON

## America's Master Mentalist

Jon Stetson is the one Entertainer/Speaker who understands the importance of capturing the Mind share and the Heart share of his audiences.

The Stetson Experience is intelligent, interactive, sophisticated fun. Along with hundreds of corporate appearances, Jon has performed for three U.S. Presidents, The King of Sweden, The Royal Family of Monaco, and has appeared on several major Television Networks. Interjecting uproarious comedy into each program, Jon creates a hilarious and unique presentation that never fails to blow the audience away. Stetson blends the art of Mystery with the study of Psychology, the predictability of human nature and the power of intuition, with a disarming sense of humor. The result is slack jawed amazement, where the most skeptical of audience members begin to feel a renewed sense of wonder as impossibilities become realities.

Jon Stetson's engaging programs are packed with audience participation. Imaginations are wowed, stretched and captured, as thoughts are revealed and minds are being read, with Jon's intriguing games of mind to mind contact.

Thought Reading has never been this much fun!
