

# Troy Thirdgill

With a high energetic style, and a unique rhythm, (his style has been called 'pure comedic jazz'), Troy Thirdgill is one of the most touring acts working today.

From Cruise ships, colleges, comedy clubs, military bases and huge corporate events, Thirdgill can work them all and has been to more countries than almost any comic in the world. It's his not corny, intelligent material, and insanely real characters that evoke deep laughs because it's from a perspective unlike so many others. As Troy puts it, "...all these comics out there acting like they're tortured artist rebels because they use profanity or vulgar premises, ...well, if everyone is rebelling, doesn't that make them conformist?"

Thirdgill is a true rebel. He's one of the few comedians working, where you can laugh with your whole family and it won't be until the shows over that people often go, "I was laughing straight the whole time and I didn't realize until we were leaving, he never was vulgar.."

The stereotype of a clean comic is 'take my wife please' and shooting water from a flower in your lape jokes. This is far from Thirdgills style. He believes you can be funny, clever, insightful and tactful.

It's because of his material, high energy and hysterical characters that can be presented to a wide audience is the reason why Troy Thirdgill is so sought after. He works everywhere, all the time. He truly is:

**'THE MOST FAMOUS, NON-FAMOUS COMEDIAN!'**
