

The Voice. The Music. The Experience.

Finis

Remarkable musical impressions of some of the best entertainers of the last century!

Truly unique in name, truly phenomenal talent, truly an entertainer's entertainer!

Finis performs throughout the world in theaters, casinos performing art centers, and other major venues. There is something about Finis Henderson's performance that makes him stand out from every other musical impressionist in the business; His obvious passion for entertaining uniquely combines with his elegant style and limitless talent. Finis delivers a clean, fun and thoroughly entertaining show.

The marvelous gift he was given is now his gift to us... polished to perfection! When magicians refer to Houdini, they call him the "Master of Magic". We will say the same of modern day impressionists when they refer to Finis Henderson as the "Master of Voices".
